

# MEMBER'S PROFILE

## SCIPS Southside Cluster Industry Placement Service

### *SCIPS Representative - Carmel Dalton*

SCIPS links with schools and industry to provide opportunities for young people, 13-19 years of age.

The Local Community Partnership Network is an Australian Government initiative, funded by the Department of Education, Employment and Workplace Relations (DEEWR), to support students through school to achieve a successful transition from school to further education training and work. SCIPS offers a suite of services to 38 schools on the southside of Brisbane.

SCIPS can facilitate school based traineeships and apprenticeships or full time opportunities for students in schools into industry.

In fact, SCIPS has been successful in linking schools to industry since 1998

Our business is a one-stop-shop for both schools and industry.

Our clients (schools, employers, students, families and community) feel totally supported in addressing their needs.

"I was pleased to attend your (SEQICC) networking evening last week which highlighted the breadth and depth of the support of indigenous business leaders, sporting representatives and colleagues for our indigenous young people. Links with community organizations such as yours support our Local Community Partnership to improve the quality of career development and transition opportunities for our young students." (Carmel Dalton)
